

**QUALITY
ENVIRONMENT
OHS POLICY**

As PRODE, we maintain our impressive presence in the sector by adopting the correct, serious, practical, quality, environmentalist and permanent service understanding with the determination to continuously increase our success graph in machinery manufacturing, equipment manufacturing, maintenance, repair, overhaul and steel construction projects. The excellent success and rapid growth we have achieved in recent years have inspired us to focus on our goal of institutionalization by prioritizing the occupational health and safety of our employees without compromising our family warmth. In this process, team understanding and cooperation have become one of the core values of our company and have made a significant contribution to our success.

Aiming to maintain our leading position in the sector in the future and to provide the highest level of service to our customers, we maintain our commitment to innovative solutions and Quality & Environment & OHS standards. As PRODE, we are determined to strengthen our presence in the sector and further increase our success graph.

We take the necessary measures to ensure safe and healthy working conditions to prevent injury and health deterioration related to our work and working environment, and we conduct and monitor our risk analyzes to eliminate potential hazards and reduce OHS risks.

As PRODE, we always prioritize the quality of manpower and product range in our activities. By using creativity and team spirit at the highest level, we achieve success with the right strategies. Our company has the determination to offer a constantly rising service bar to the institutions and organizations it serves.

ProdeUSA
Warehouse Solutions

In our success adventure that started years ago, PRODE has been operating in the fields of automotive industry, steel construction, machinery manufacturing, equipment manufacturing, maintenance and overhaul, engineering, design and analysis by fulfilling all applicable requirements with its increasing business capacity and expanding service range. By combining modern technology and superior manpower, we have taken our place among the leading companies in the sector.

As PRODE, we aim to maintain our leadership in the sector in the future and to provide the best service to our customers and we are moving forward with determination with continuous improvement activities.

Our policy will be a framework for the continuous improvement of our management systems, for determining our goals and objectives, and will guide our organization in accordance with its purpose and context and in support of its strategic direction.

**As PRODE, we
are committed to
all these.**
